Athene

Visualize | Realize | The leather you imagine, and more.

Athene, a fine Italian leather by Cortina Leathers, is distinguished by a smooth finish and glossy sheen that features a unique marbled distress that gives this sophisticated leather a vintage look. There is a subtle two-tone and slight “pull up” created as the leather lightens when stretched. Stocked in an expansive selection of over 35 designer colors, Athene is a versatile choice for a variety of applications.

Note: Environmentally friendly, Athene contains no lead, emits low VOCs and has achieved an Indoor Gold Advantage certificate from SCS.

Technical Specifications

Origin	Italy
Raw Material	European hides, aniline drum dyed
Finish	Aniline
Hide Size	50 – 55 sq. ft.
Thickness	0.9 – 1.1 mm
Abrasion Resistance	ASTM D7255; CS10 Taber Wheel, 250 Cycles/500 gram weight
Flame Resistance	NFPA 260–Class 1 and CAL TB117–2013
Performance Category	2
Cleaning Code	2

50-13 Testa di Moro

50-14 Cemento

50-15 Fiamma

50-16 Chicco di Café

50-37 Elefante

Care & Cleaning

Aniline leathers are designed to age gracefully, increasing in beauty over time. Very little care is required—general upkeep requires only an occasional dusting with a clean cloth. Never use oils, saddle soaps, harsh cleaners or cleaners containing abrasives on aniline leather. Periodically, you may wish to gently wipe the leather with a clean, damp cloth to remove accumulated soil and allow it to air dry. Should a spill occur, remove immediately by blotting with a clean, dry, absorbent cloth to avoid permanent discoloration. Should soiling remain, a solution of lukewarm water and a mild soap such as Ivory® or a mild cleanser such as Woolite® may be used. Dampen a clean white cloth in the solution and gently wipe the affected area using a circular motion. Never apply the solution directly to the leather. Rinse completely with a clean cloth to ensure all cleaner is removed. Dry with a paper towel or dry cloth and allow to completely air dry. It may be necessary to repeat this procedure, allowing the leather to completely dry between applications. To avoid harming the leather, do not rub vigorously or for an extended period. It may not be possible to remove all stains from this natural product.
